To describe the activities of a multispecialty medical group practice in Pleasant Hill, California, over a 10-year period. We reviewed the office visits, emergency department visits, and hospitalizations of patients who participated in our medical group. We determined the numbers of diagnoses, visits, and procedures, by specialty, over the 10-year period and documented the demographics, source of referrals, and other characteristics of patients of the practice. An internal medicine practice that has been in operation since 1970, and whose members work within hospitals and independent freestanding clinics in the community. The office visits, emergency department visits, and hospitalizations of patients seen over a 10-year period. Over the 10-year period, our practice provided services for nearly 700,000 patients. Over that time, we saw more than 44 million office visits and 7.8 million emergency department visits and hospitalized nearly 19,000 patients. During the past 10 years we have seen significant increases in the numbers of patients treated for type 2 diabetes (34.1 to 45.3% of office visits; P
